Win Rate Distribution

BAND	COUNT	CONFIDENCE SPLIT
100%	58	14 OK / 44 LOW
90-99%	0	0 OK / 0 LOW
80-89%	21	21 OK / 0 LOW
75-79%	6	6 OK / 0 LOW
60-74%	48	48 OK / 0 LOW
50-59%	62	61 OK / 1 LOW
Below 50%	0	0 OK / 0 LOW

Caveat: rows marked **LOW** confidence have under 3 years of data (some just 1) — a "100% win rate" there is 1-2 data points, not a robust statistic; check the distribution table above for how much of the win-rate edge sits in thin samples. Best-direction-per-stock selection has repeatedly underperformed a uniform index-backed direction out-of-sample in this project's own testing.
